# Says He Might Back Governor For President

By The Associated Press

Vice President Hubert H. Humphrey has drawn a modified attack from a coalition of anti-Vietnam policy Democrats and Sen. Eugene J. McCarthy says he could support Nelson A. Rockefeller for president, subject to several conditions.

Humphrey's presidential campaign leaders, meanwhile, said privately Sunday they are making an effort to appease Mc-Carthy backers in an effort to ward off any possibility of a third party Democratic split.

The coalition of dissident Democrats adopted a resolution in Chicago saying Humphrey could not provide "immediate change and new leadership"but tabled a blistering resolution saying they would oppose him if he becomes the Demo-

Jean Worth, Editor

#### Welcome: Tom Francis

Co-chairman Thomas Francis of the Upper Great Lakes Regional Commission was to address a luncheon gathering at Marco's today of area service club members on "The Upper Great Lakes Regional Commission — A New Dimension in the Politics and Promise of Growth."

Francis is a very popular man in the Upper Great Lakes Region these days because the agency which he heads with the governors of Michigan, Wisconsin and Minnesota has federal funds to dispense in the financing of public works. He is a man with wide experience in education and in government and certainly the governors are familiar with the real needs of their states, so the prospect is that the Commission can be a truly helpful force in stimulating the economy of the region, which is its function.

It started off well with the appointment of a state advisory task force to counsel on projects to be recommended to the Regional Commission, which is our region's version of the Appalachia Program on which Congress has expended \$1 billion in the southeastern United States. The intention is to create a partnership of region, states and federal government to stimulate the economy.

There are serious reasons to distrust still another federal agency devoted to stimulation of the economywhich in final analysis must depend upon private industry and business for its salvation. Francis and the Lake States governors are familiar with this situation, but they believe that there is a potential for regional development that transcends the present arrangements for state-federal cooperation on a state basis.

This is clearly demonstrable in the fields of highways, of Great Lakes fisheries development, of vocational education, of tourism and industry. The Upper Peninsula, for instance, believes that its tourism business can be greatly accelerated if the Wisconsin Highway Department and Michigan Highway Department highway construction plans are meshed to create great arterial highways from Wisconsin up into the U.P.

At present there is coordinate planning between the states, of course, but there is no regional accent for con- Costing \$9 Million A Day struction. The result is that the Upper Peninsula gets such a piddling little share (eight-tenths of one per cent) of the state's highway construction funds that there's no foreseeable prospect of a modern superhighway system for the area.

says it's no better in Wisconsin.

# The Smooth. Biggest beer news since the repeal of Prohibition. Have you tried it yet?

Tastes so good, you'll think it's illegal.

Don't wait.

One cold glass of the world's first smoothened beer and you'll know you've been missing something.

This is not just loose conversation.

Hamm's actually takes an extra step to smooth out the natural bitterness of the hops.

It takes us more time. It costs us more money.

But it's worth it.

Because you get a beer that goes down smooth glass after glass. A beer with a smoother taste that refreshes you when nothing else can.

ITS FOUR MASSIVE engines screaming, the giant C5A Galaxy lifts all its 28 wheels off the test runway at Marietta, Ga., for the first time Sunday morning. A test crew of five took the 248-plus-ton airplane on its first flight over north Georgia. (AP Wirephoto)

Officials from the National fered cramps and went under Park Service and the State while swimming outside the Parks and Recreation Commission were at the ceremonies on this tiny island in the St. Croix River in northern Maine.

The island was the site of the first European settlement on the Atlantic coast north of Florida. French explorers Sieur de Monts and Samuel de Champlain led a group of about 100

#### **Doctor Examines** Patient Over TV

BOSTON (AP) - Television has been used by a doctor to interview, examine and diagnose a patient miles away.

Massachusetts General Hospital demonstrated the new technique Saturday. A doctor at the hospital and a volunteer patient three miles away saw each other on television screens and spoke over a radio hookup.

The doctor used his television screen to view charts, X-rays and electrocardiograms. Aided by a nurse with the patient, the doctor got direct readings of blood pressure, heart beat, pulse and respiration.

Dr. Kenneth T. Bird, associate physician at the hospital, developed the television technique and called it "an extension of the usefulness of the physician."

CHANGED NAME

King George V adopted the name of Windsor for the British royal house in 1917, during the war with Germany, to get away from the German name of Saxe-Coburg-Gotha which Queen Victoria took from Prince Albert.

# Women's Activities

FORREST MITCHELL and the former Ida Cholger were married in Escanaba Saturday, June 29 and were honored at a hoe-down reception at the Riverland Ballroom in Danforth. Some 400 guests danced long into the night at the unusual wedding reception. Callers included Vern Bero of Green Bay, who brought along a band, Steve Baltic and Marvin Vanderville of Escanaba. Pictured here are scenes of the square dancing and in the center are the bride and bridegroom. (Daily Press Photos)

A&P IS THE PLACE TO BUY YOUR STEAKS!

That's a fair question. But not an easy one to answer because we have our own quality standards, different from any other meat merchants.

These standards don't fit exactly the familiar terms you know for grades of meat. As an example, did you know that some beef, graded U.S. Choice, just doesn't meet our "Super-Right" specifications?

It's true! You see . . . we don't buy by grade. We use gur own high standards to bring you the best values.

That doesn't mean we don't approve of such grading-not at all. It just means we're very fussy about the beef we label "Super-Right." It stands to reason we have to be or A&P wouldn't be America's number one meat merchant.

Are "Super-Right" Meats a good reason for shopping A&P?

They're one of many!

#### twin sisters with a butcher knife early Sunday, catching one of the girls in an alley after she jumped from her bedroom in a vain effort to escape him. Victims of the double slaying were Deanne Guiley and her sister, Nora Ann, described by neighbors as inseparable play-

mates. Nora Ann, a sixth grade student in A.L. Holmes elementary school, was slashed to death in her bedroom. Her body was found on the floor near the

blood-spattered bed. Deanne, according to homicide officers, jumped out of her first floor bedroom window and ran up an alley with the killer in pursuit. She got less than a block before the killer caught up with her and dealt the first of 17 stab wounds in her back, police said. A trail of blood ran over 200 feet from the spot where her body was found.

The tragedy was discovered by the girls' older brother, Elwin, 16, who said he was awakened by strange noises about 3:40 a.m. He said there had been a prowling incident near the house recently.

# Seaway Strike Talks Fruitless

OTTAWA (AP) - A secret four-hour meeting between officials of the St. Lawrence Seaway Authority and union negotiators has failed to hasten the end of a strike that closed the waterway June 21.

The meeting was held Sunday after an appeal from Prime Minister Pierre Elliot Trudeau that the two sides resume talks.

The Canadian Brotherhood of the University of Michigan, ex- been named site of the Demo- draw themselves from the Railway, Transport and General Workers, which represents 1,300 of the Society for Nuclear Medi- rights and hippie leaders cho- If the peace movement plans seaway workers, modified its management request to scale it down still further.

W. J. Smith, union president, said the authority took an "unwarranted, intransigent and inflexible position" after the modified demand was offered.

The union proposed a 15 per cent wage hike over two years-10 per cent in the first year and year. It had sought 20 and then 18 per cent on the ground that its members are paid less than their U.S. counterparts.

The authority repeated Sunday its offer of 12 per cent over the two years, Smith said. The three per cent difference is "unbridgeable," he added.

The authority issued a brief statement blaming the impasse on the union.

The average, hourly wage for seaway workers is \$3.10.

Wrong.

Consider these costs. You can pay hundreds or dollars to convert. Your pilot light can cost about \$10 a year. You can be penalized for late payment of gas bills and pay hidden taxes. You have none of these costs with oil. But more important, what do you gain? Switching fuels won't make your heat more modern. Switching oil heat service and equipment will. Change to Standard Oil Hot Line Service. Our service and home comfort equipment is as modern, or more so, than gas or electricity. Wouldn't you rather put that "gas" money into a car or color TV or something you really want? Call Hot Line for the facts.

Don't buy the "gas line" until you call Hot Line.

You expect more from Standard and you get it.\*

#### by J. R. Williams Participation Is Key To Success, **Declares Shriver**

PARIS (AP) - U.S. Ambassador Sargent Shriver has recommended the idea of "participation" to President Charles de Gaulle's government and the rest of the world

"Participation," Shriver said is a touchstone to the success of any program attempted domestically within France or within the United States, a program that is attempted in Southeast Asia, the pacification program in South Vietnam or a rural program in Tanzania or Ethiopia. You can not legislate or mandate people to do the things which they can do them-

He attributed successes of the U.S. Peace Corps and poverty program, which he directed, to enlisting the voluntary participation of the people concerned.

Shriver reported a conversation he had with Andre Malraux, De Gaulle's minister of culture, who told him that young people had lost faith in parliamentary democracy, friendship with the United States, government, business and diplomacy.

Shriver suggested that perhaps this was good because it would lead older people to ask themselves whether their ideals and actions are worthy of faith.

Young people, he added, seem to be saying that it is not important to control men through parliamentary democracy, business power or any other way, that Fight In China the important thing is to be with people and share their problems and for government leaders in both France and the United tars and grenades between opthey are "on the side of the people-on the side of the poor, if

#### Briefly Told

The Gladstone Brotherhood of Railroad Trainmen Auxiliary will meet at 8 p.m. Tuesday at the Legion Hall.

State Police issued traffic summonses over the weekend to Francis Bolm, 221 S. 16th St., Escanaba, failure to yield right of way, and John Webber, St. Paul Park, Minn., speeding.

Gladstone City Police ticketed Roy R. Lang of Sinclair, Mich. for failing to yield the right of way, following a minor accident. The City Police are also looking for a small white poodle who was taken from or jumped out of a parked car on Delta Ave., belonging to Kenneth W. Kelloniemi of 625 S. 16th St., Escanaba.

# Dairy Testing Is For Profit

"My herd is not good enough Delta County the Owner Sampfor the Dairy Herd Improve- ler program seems to be the ment Association Program."

Extension agricultural agent, center. says many dairymen make this comment, but that nothing could be further from the true purpose of dairy cattle production testing.

"Unfortunately, the publicity attached to those enrolled in production testing programs is thought by many to be the main value of the program," says Heirman. "But production testing is more than that. It is designed to improve the dairyman's management, and the herd's production capability.

"The records are what are important. When used by the dairyman to feed, cull and breed for higher and more efficient production, they can return \$3 for every \$1 of cost.

"All herds, regardless of size, go through periods of surplus animals or need for replacement," adds Heirman. "Good records would show ability to increase production and cows with production records will sell at a higher price than cows without records.'

There are two types of production testing available to dairymen, the standard D.H.I.A. and the Owner Sampler. For

# Boy Drowns In Escanaba River

By The Associated Press Divers today were attempting to recover the bodies of two weekend drowning victims, who were among nine persons to lose their lives in Michigan waters.

Eaton County Sheriff's deputified man was swept off a small dam into the Grand River while fishing at a park in Grand Ledge Sunday night.

Meanwhile, divers in the Upper Peninsula near Marquette were attempting to recover the body of a 6-year-old boy who drowned Sunday while fishing with his father. Police said the, Michael Thurmond, who lived at K. I. Sawyer Air Force Base near Marquette, slipped off a ledge into the east branch of the Escanaba River in Sand Township, Marquette County.

The Associated Press Count began at 6 p.m. Friday and ended midnight Sunday.

#### Kalamazoo Man Survives 46,000 Volt Line Shock

KALAMAZOO (AP) - A 30year-old Kalamazoo man Sunday survived a 46,000 - volt electric shock. Police say Arthur McCabe was installing a television antenna on his house when the antenna fell against a high - tension power line, sending the current down the aluminum antenna and through his body. McCabe suffered burns and was knocked from the roof. He was reported in good condition at a Kalamazoo hospital.

#### Hare Announces **Humphrey Backing**

LANSING (AP)-Secretary of State James M. Hare has announced his support of Vice President Hubert H. Humphrey for Democratic presidential nomination

An aide to Hare released the announcement over the weekend in Lansing. Hare is hospitalized in Washington after suffering a mild heart attack about a week
